INTRODUCTION

Despite the downturn of the Oil and Gas prices since 2015, the Oil and Gas constitute the backbone of Qatar's Economy.

The State of Qatar exerts efforts to diversify its resources to alleviate the country's dependence on crude Oil and Gas

The Qatari leadership endeavours to increase production capacity of the liquefied natural Gas (LNG) and the Oil as the majority of the GDP relies on Oil and Gas.

The ministry of energy and industry assumes the responsibility for planning and supervising the implementation of the strategy for Oil and Gas and other relevant industries within the Ministry's general policy.

The state continues, through QP, to execute its plans aiming at increasing Oil reserve and production capacity through the continuous efforts to develop the onshore and offshore fields.

Al-Rabban Oil and Gas was established by entrepreneurs in view of the current economic outlook to participate in supporting these developments. However, the company shall take a leading and strong role in Qatar after meeting the current challenges through its strong multinational associations and JV's from around the globe.

ABOUT US

Al Rabban Oil and Gas is structured to be a leading global integrated Oil and Gas services and solutions provider in the fields whether it is upstream or downstream value chain.

The company through its partnerships can offer spectrum of capabilities covers the development, rejuvenation, as well as commissioning of projects.

Through our partnerships the company can provide both engineering and construction in the fields of Oil and Gas & petrochemicals.

The company will remain resilient through all challenges to provide the necessary support through our partners to the Oil and Gas Industry to help them to drive the sustainable growth for the country.

The Chairman Message

Abdulaziz K. Al-Rabban

Al Rabban Oil and Gas is relatively new participant in Qatar's economic diversification plan, which is fully aligned with Qatar National Vision 2030, through its Global business connections and long-term relations with multinational companies and/or entrepreneurs.

Al Rabban Oil and Gas operates in an industry demonstrating fundamentally attractive long-term prospects for Qatar wealth.

Placed in a strong position within the Middle East, Al Rabban Oil and Gas has capitalised upon the strategic importance of this industry for the global markets.

Al Rabban Oil and Gas continue forging strong and long-standing relationships with many of the world's leading Oil and Gas entities operators in this region.

At Al Rabban Oil and Gas, our approach is enabling stakeholders to develop feasible and successful business to achieve the ultimate goal of long-term excellence.

The key resource of success lies within the employees themselves whom through teamwork shall contribute towards the efficiency of delivery and ultimately the profitability of the company.

MISSION & VISION

Mission

Our mission is to exceed customer satisfaction through applying industry best practices thus creating value for our clients, and inherent professional practices reflects the way we do business.

Our Vision

Al Rabban Oil and Gas has clear goal to be a leading provider of professional services for the Oil and Gas, and create a strong client base.

ASSOCIATED COMPANIES AND PARTNERS

Total Solution for offshore
EPC, EPIC & EPCIC

*Engineering and Fabrication
for bulk material handling
system.*

www.fam.de

An independent group of companies based in Magdeburg, Germany with subsidiaries worldwide.

- Has a history of up to the first half of the 19th century as a manufacturer of materials handling systems
- Services include Project Design & Engineering, Bulk material handling and opencast mining systems, plant services, mineral processing, subcontracting
- With subsidiaries and representative offices in Australia, Bulgaria, Canada, Chile, China, Hungary, Russia, Singapore, South Africa, and USA
- With 1500 employees worldwide
- One of the foremost companies in material handling systems and can proudly point to plants in over 80 countries.

Oil & Gas Downstream

EPC & EPIC Contractors.

www.ilconstruction.com

- Active in EPC contracts Oil & Gas (downstream),
- Headquarters in Istanbul with network of branches in Russia, Kazakhstan, Azerbaijan, Turkmenistan, UAE, Malaysia, Haiti, and Venezuela.
- Over 7,000 highly qualified and reliable workforce.

Rigging and Lifting

Equipment Managers

and Suppliers

First Integrated Solutions manufactures and provides high quality safety critical services designed to help our customers to improve safety, increase productivity and make significant fiscal and operational savings.

First Integrated has more than 2000 different equipment types across a fleet of more than 60,000 items and are therefore able to offer the full spectrum of equipment for every discipline in the oil, gas and natural resources industry.
